

CREATING IBM CLOUD SERVICE

Date	03 November 2022
Team ID	PNT2022TMID03606
Project Name	Project – Real-Time River Water Quality Monitoring and Control System

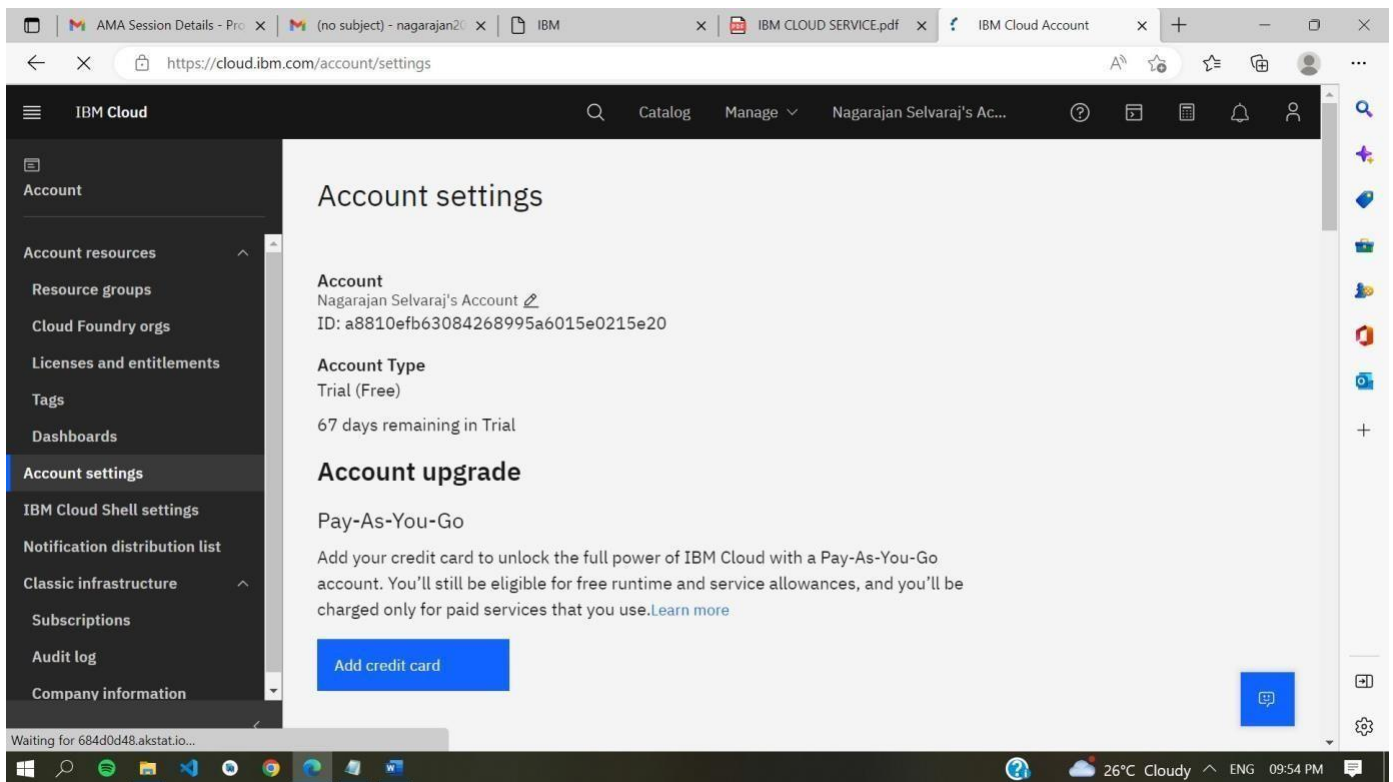

The screenshot displays the IBM Cloud Dashboard interface. At the top, the browser address bar shows the URL <https://cloud.ibm.com>. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user profile (Nagarajan Selvaraj's Ac...). A 'Create resource' button is prominently displayed in the top right corner.

The main content area is titled 'Dashboard' and features a 'For you' section with five recommended actions:

- Build**: Explore IBM Cloud with this selection of easy starter tutorials and services. (5 min)
- Monitor your resources**: Get visibility into the performance and health of your resources. (5 min)
- Explore IBM Analytics Engine**: Develop and deploy analytics applications using open source Apache Spark and Apache Hadoop. (10 min)
- Create and deploy an application**: Browse our starter kits, and then select one to jump start the process to create and deploy your app. (5 min)
- Create a Kubernetes cluster**: Automate deployment; manage your container apps in a native Kubernetes experience. (5 min)

Below the 'For you' section, there are four quick links: 'User access' (Manage users), 'News' (View all, featuring 'IBM Tech Now: October 24, 2022'), and 'Planned maintenance' (View all). The bottom of the dashboard includes a footer with system information: 26°C Cloudy, ENG, and 09:51 PM.

An IBM Cloud Service created Successfully .
